- EG 13 TV-L Please enclose job description -> PSE Intranet
 EG 14 TV-L (form "Tätigkeitsdarstellung")

German Foreign Trade Law

We confirm that the guest scientist/research fellow will only get into contact with publicly available knowledge¹ during the employment or that the activities will be part of fundamental scientific research². Any transmission of not generally available knowledge in the sense of §§ 45 ff AWW³ can be excluded.

- Yes No

¹ E.g. through publications in books, journals, through the publication of patents or of dissertations and theses in publicly accessible Department libraries. Generally accessible refers to technology and software, which is available for unrestricted dissemination (copyright restrictions do not cancel universal accessibility).

² experimental or theoretical work to obtain new insights into fundamental principles of phenomena or facts, which do not primarily aim at a specific practical objective or a specific practical purpose.

³ AWW: Außenwirtschaftsverordnung, background: Some countries try to acquire know-how through scientific cooperation, which is then used for the development and production of ABC weapons or other arm projects. Please be aware that all Member States of the European Union have committed themselves to preventing a proliferation of weapons of mass destruction.)

If you cannot confirm this, please inform PSE promptly in writing, along with a job description and a statement as to whether the guest scientist/research fellow will get into contact with technology or software covered by Annex I of the EC Dual Use Directive or by part I, section A of the export list. The relevant documents are available [on the website of BAFA in the area "Ausfuhrkontrolle"](#). If necessary, we have to contact the BAFA (Federal Office of Economics and Export Control) in order to receive an exemption. As far as we know, the processing of such a request may take approximately one to two months.
